When every minute counts

Seminar on cross border child alert cooperation in life threatening cases of missing children

2 June 2014 - Technopolis, Athens

"When every second counts" is a European seminar organized in the framework of International Missing Children's Day activities taking place across Europe around 25 May.

The objectives of the event are to raise awareness on missing children, as well as on available tools to help prevent and support families and children concerned, with a specific focus on cooperation between national stakeholders involved in Child Alert systems across Europe.
